Our technical felts have properties that make them suitable for use as part of industrial processes or manufactured products.

Their quality is guaranteed by certificates ISO 9001:2015 and OEKO-TEX Standard 100. Our felts are manufactured according to either DIN 61200 Standard or SAE J314b Standard.

We produce a wide range of densities and thicknesses, with 100% pure wool composition or blends of wool and other fibres.

Thermal insulation, anti-vibration, lubricating elements, filters, seals, gaskets or washers are some of the many applications of our felts.

We also offer special treatments to provide our felts with additional properties:

WATER PROOFING

FIRE RESISTANT

ANTI-MOULD

ANTI-PILLING

ANTI MOTH

STAIN RESISTANT

EXTRA LIGHT COLOUR-FAST

STIFFENER

NON-SLIP

ANTI-STATIC

USES

Orthopaedics

General industry

Baking industry

Musical instrumentation

Liquid absorption

Appliances

Packaging

Metallurgical ind.

Riding saddles

Glass industry

Window displays

Ephemeral spaces

Interior design

Automotive

Footwear

Construction Acoustics

Furniture

SAE J314b STANDARD

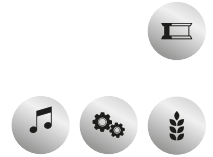

F1

**DURO 1°
BLANCO**

DENSITY
0,340 g/cm³
COMPOSITION
98% BLEACHED WOOL

THICKNESS
1/8" – 3/4"
LENGTH
25 – 34 yd
WIDTH
60"

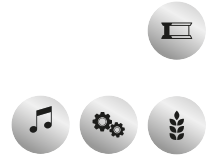

F3

DURO GRIS

DENSITY
0,330 g/cm³
COMPOSITION
86% WOOL

THICKNESS
1/8" – 3/4"
LENGTH
25 – 34 yd
WIDTH
60"

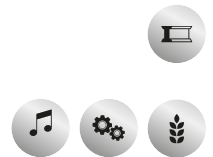

F50

**DURO 1°
BLANCO**

DENSITY
0,325 g/cm³
COMPOSITION
100% CARBONIZED WOOL

THICKNESS
1/16" – 3/32"
LENGTH
45 – 50 yd
WIDTH
60"

F7

**SEMICARDAS
GRIS**

DENSITY
0,267 g/cm³
COMPOSITION
80% WOOL

THICKNESS
1/8" – 1"
LENGTH
38 – 42 yd
WIDTH
72"

F5

**SEMICARDAS
BLANCO**

DENSITY
0,260 g/cm³
COMPOSITION
98% CARBONIZED WOOL

THICKNESS
1/8" – 1"
LENGTH
38 – 42 yd
WIDTH
60"

F10

**C-200
BLANCO**

DENSITY
0,180 g/cm³
COMPOSITION
98% CARBONIZED WOOL

THICKNESS
1/8" – 1"
LENGTH
23 – 47 yd
WIDTH
72"

Possible slight colour differences between production lots or colour cards | We can customize compositions, densities and thicknesses | We have the option to dye these products
